 PROFESSIONAL SUMMARY

CSE graduate with strong expertise in software development, desktop applications, and system automation. Experienced in building efficient, scalable solutions using various programming languages. Skilled in UI/UX design and data organization, with a focus on clean architecture and high-performance applications. Passionate about developing practical tools that improve productivity and user experience.

 EDUCATION

Bachelor of Computer Science and Engineering, *University of Hafr Al-Batin*

Aug 2020 – Jan 2026
Hafr Al-Batin

Graduation Project: Engineered a conflict-free University Classroom Booking System

 WORK EXPERIENCE

Systems Support Engineer,
Deanship of E-Learning and digital transformation, University of Hafr Al-Batin

Jan 2025 – Aug 2025
Hafr Al-Batin

CO-OP Training

- Built PowerShell GUI tools that cut routine task time by **50%**, saving approximately **15** hours per week.
- Created a PyQt-based phone directory with dynamic business card views, centralizing data for **900+** contacts.
- Handled hardware inventory of **200+** devices, executed **60+** hardware replacements.

 PROJECTS

Automation Tool for Device Setup 

Apr 2025 – May 2025

PowerShell tool that automates software installation and system Adjustments, cutting work time by **50%**.

Contact & Business Card Manager 

Jun 2025 – Jul 2025

PyQt desktop application with Excel data integration and dynamic UI rendering

University Classroom Booking System 

Sep 2025 – Nov 2025

Engineered a full-stack system using Flask, handling **100+** weekly bookings across **65+** halls with **0%** scheduling conflicts.

ASP.NET Survey System 

Feb 2026 – Mar 2026

Developed a dynamic ASP.NET web application with secure local data processing, designed to capture **1000+** responses.

 SKILLS

Technical Skills: Python | SQL | HTML | CSS | JavaScript | PyQt | PowerShell.

Design & Creativity: UI/UX Design | Adobe Photoshop | Sketching & Digital Art.

AI Interaction: Prompt Engineering | Task Formulation | Effective AI Communication.

Systems & Hardware: PC Assembly | Hardware Troubleshooting | System Optimization.

Data & Analysis: Data Structuring & Organization | Analyze complex data | Advanced Excel.

Additional Skills: Technical Documentation | Presentation Design | Microsoft Office expert.
